It is not often that a woman finds herself possessed of a painting more valuable than she supposed, or discovers in an old family portrait a masterpiece. It is more often the other way; yet this is what has recently befullen a Miss Carter of Virginia, who is now a resident of Washington. CITY COUNCILMEN

A gentleman prominent in the City Council, and whose business judgment is highly valued in that body, said last night, in discussing the matter of the proposed municipal investigation with a representative of The Times-Dispatch, that he thought it would be to the best interests of the city to reduce the representation in the Council and pay the incentive regular salaries.

"If such a proposition should be made I would cheerfully vote for it," said the member, "I believe the better way would be to submit it to the people," he continued, "and allow them to vote on the question directly at the polls. There is no doubt, in my mind, that the scheme is a good one; that it would result in getting more good business men in the body, and that all interests would be best subserved."

TALKS OF DISCRIMINATION

WASHINGTON, D. C., June 16.—The
Planters' Compress Company, with principal offices in Boston, in a complaint filed
with the Interatate Commerce Commission, made a series of charges of unjust
discrimination against compress cotton in
railroad tariffs.

It asks the commission to adjudge the
defendant roads guilty of unjust discrimination, of uniawfully charging less for a
longer haul than a shorter one, of violation of the law in hauling uncompressed
cotton from the stations north of Muskoges south to South McAlester, and then
north again through these stations at
the rate of 55 cents per 169 pounds, and
of similar violations in all similar cases
of back hauling at other points on their
lines. The commission is asked to declare
that the practice of exacting the uncompressed cotton freight rate from shippers
of compressed cotton is unlawful.

### Litigation is Embarrassing Navy Department In Getting Vessel to Norfolk.

ting Vessel to Norfolk.

(By Associated Press.)

WASHINGTON, D. C., June 10.—Little gation following the failure of the Trigg Shipbuilding Company, of Richmond, Va., has delayed the execution of the plans of the Navy Department for the transfer of the cruiser Galveston from that yard to the navy yard at Norfolk, where she is to be completed at the expense of the sureties of the defaulting contractors. The removal of the vessel is opposed by some of the subcontractors for work on the vessel unless their claims against the Triggs are settled. They evidently believe that their chances of satisfaction are better while the vessel is in the hands of the Triggs, especially as the vessel will not actually belong to the government until after her completion and final acceptance.

The Navy Department is at a loss how to proceed in the premises, and the Attorney-General has been asked for an opinion in the matter. Meanwhile all proceedings are in abeyance. The War Department is similarly embarrassed by the Trigg failure. That Company was building a hydraulic dredge for the engineer department, and it also was left urfinished when the company failed. Action with respect to that vessel will be governed by the advice of the Attorney-General in the matter of the Galvestone.

No one has yet expressed opposition to Messrs. Arthur Booth, O. J. Markham, W. J. Stiles or R. C. Broaddus, and it is quite probable that when the times comes for election the gentlemen named will be chosen.
